LOOKING AT THE NEWS WITH COLONEL HUGH CLARK

A colored preacher annoyed at certain parishioners who came in only on Sunday after the service had started, took occasion once to give them a proper dressing down. Then he announced: We will now sing that well known hymn, Come Ye Distant So Late.

The new lady president of the Dancing Masters Association declares that dancing now is more subdued than it was ten years ago. The reason must be that the dancers are ten years older and the younger people have more sense than the jazz dancers of ten years ago.

The State Called Free I met with Napper Tandy and he took me by the hand. Said he: How's poor old Ireland how does she stand?

Says I: The rebels of six years ago are on the top, they say. They're taking all the rifles from the rebels of today.

Sir Adam Beck deserved and receives honor due for the great public service he performed in installing hydro electric power in a publicly owned and operated Ontario enterprise. Those admirers, however, who insist that the enterprise should be perpetuated and that the enterprise should be kept out of politics forget that he was not always right, as so many in Canada felt. He included a hydro rail system which would have left high bankrupted Ontario if he had not been thwarted by politicians in that particular instance the politicians were right.

Mrs. Surnal, the wife of the champion sprinter, is asking for divorce on the ground that he is tedious in his talk. It is hard for him to keep up a running conversation.

Kenneth Wells knows a trapper who, knows nothing about literature, cannot read or write, thinks music an ugly noise, knows pictures are crazy things, is sure sculpture is heathen idol worshiping, loathes nature, thinks sunsets ugly and is perfectly polite. He is also as prosperous now as he was four years ago although prices of furs have fallen, but what does it all prove?

Now is the summer of school boy content made dreamy absent by the vacationers.

Miss McNeill, M.P. says there were some fumes in the Regina Convention. How can she blame them when there were so many others there who are not food?

Five kidnappers surrounded by several hundred Chicago police, escaped because one squad of police misunderstood the orders. We suspect that they escaped because they thought understood its orders.

Give a thought to Gerardo Machado. He was governor of Cuba when the depression struck the island. To keep him employed he borrowed money and went into strongly for public improvements. Everybody approved. He was popular. But the time came when he could borrow no more, and the people found through their tax bills that it cost money to borrow money. They turned on him and he is now a fugitive. It would have been better for himself and the island if he had not done what the people wanted. A dictator should be able to do the right thing and make the people like it, as Mussolini does.

Give a thought also to Senator Coons of Michigan. His toe has fallen into disfavor since Mr. Mills, chairman of the Board of the First National Bank of Detroit, disclosed that it was the Senator who stood in the way of a loan from the Reconstruction Finance Corporation of forty million dollars, which would have kept the Guardian Trust Co. open. The reason he gave for his opposition was that the bank did not have sufficient security. How ridiculous was not it government money? Yet here was a man supposed to be a politician protecting government funds in his own senatorial district.

ric. Surely he does not intend to run again.

If he had had applied the same principle as Senator Coons did it would not have had any occasion to apply for a loan, but having made loans without sufficient security it asked the R.F.C. to do the same. Having failed to get it they blame the watch dog. Fortunately for Mr. Coons he does not have to appeal for votes for a while and for the time the people may have forgotten that he once protected the public interest.

NAMAKA

Mrs. E. J. Fawkes sprained her ankle last week and her little son Richard had the misfortune to fall and break his collar bone. Both are recovering satisfactorily.

Mrs. E. J. Fawkes to Cardston Wednesday taking home her grand son who has been spending the summer with her.

Among those writing supplemental examinations in Calgary this week were Dorothy Cooks, Mary Louise McLean, Jean Thompson and E. J. Baker.

Miss Isabelle Thomson was home over the week end.

Namaka school board has succeeded in arranging its finances so that school will be opened next Tuesday as usual. Miss Margaret Thomson will again take charge of the Junior while Mr. George Baker of Calgary, has been appointed principal. All grades, from one to eleven inclusive will be taught.

Nearly all the young people of Namaka and district attended the big in Strathmore Saturday night and report having had a wonderful time.

Jack and Art Bremner, Jr. left Wednesday for London where they will be thrashing a couple of weeks.

Several farmers are thrashing now and most all in the district have cutting well under way. It is not completed.

NIGHTINGALE

The Nightingale W. I. met at the home of Mrs. Southall last Thursday. The Roll Call for the afternoon was a humorous child's expression and song.

The result, Mrs. Lambart read a paper on Pitting Your Child in the Future. This was much appreciated some discussion followed on the necessity of keeping the public schools in operation. At the close of a social hour a very delicious tea was served by the hostess.

Mrs. Thurston is enjoying a week's holiday with friends in Calgary.

Mrs. Thorsen and Mrs. Dorian of Calgary were guests last week at the home of Mr. and Mrs. Coops.

Rachel Harrison returned to her home after spending a delightful week with her friend Miss Tebb at Airdrie.

Mr. and Mrs. Otto had a visit with friends at Lyalta lately.

Mrs. Fletcher returned to her home at High River but Mrs. Margaret is still with the Newall family.

Mrs. and Mrs. Downey, Jr. have moved to Balintore where they will begin his duties as teacher next week.

Jack Coops is busy these days with his new tractor.

A Negro cook answered the telephone of the other morning, and said: "Hello, how do you do? What number is this?"

The cook in no mood for trifling questions, said with some asperity: "You'll ought to know. You done called it."

Local News Items

On Tuesday under the auspices of the Women's Institute a demonstration on light deserts was held at the home of Mrs. D. A. Moore. A short talk on deserts was read by Mrs. D. A. Moore. Refreshments were served including whipped cream, Sago cream, Bavarian cream and lemon punch which was enjoyed by a number of guests.

Mr. and Mrs. A. J. McFarland and children are enjoying a motor trip for the week visiting Sylvan Lake, Edmonton and other points of interest.

The Ladies Aid of United Church will meet Thursday Sept 7th at the home of Mrs. J. A. Baker.

Mr. and Mrs. C. R. Laing and family and Miss Stella Penton of Strathmore were the guests of Mr. and Mrs. J. A. Teuch over the week end.

Mr. Frank Seale and family spent a holiday at Castor. While Gladys put on a concert under the auspices of the Band at which she was greeted with a large audience.

Van Der Brugg to town a couple of hours but the market was slow and so he had to sell it as today.

Mrs. Shikama of Ardmore has returned from a delightful holiday spent in the mountains going as far west as Golden.

Mr. Sam Labin was all smiles last Friday when the nurse at the Calgary Hospital announced that he was the proud father of a handsome boy. Sam says he is a bonnie lad and the image of his father. Congratulations.

Mrs. McGrigor, Miss Jean and Allister and Annie returned Sunday from two very happy weeks in Banff.

Mr. Schulte, Teddy and Lolo were Banff visitors several days last week.

The Sebalds, Doherty and High will open in Strathmore Tuesday September 5th for the Fall Term.

SURPRISE BIRTHDAY PARTY

A very genuine surprise was arranged Tuesday evening when a number of the friends and neighbors of Mrs. Frank Jones, assembled at her home to celebrate and make merry with her on the occasion of her birthday.

The house was taken possession of while Mrs. Jones was visiting a sick neighbor and when she arrived home her surprise was complete.

Mr. Jones who was at home when the invading women arrived was totally surprised. However they were soon given to feel that the self invited guests had come in the kindest of moods so all was well.

Tables for cards were soon arranged and bridge and whist were played at the tables.

Following the games dainty refreshments were heartily partaken of and a happy social hour followed.

At the hour Mrs. A. J. Moore on behalf of all the guests expressed heartiest greetings to Mrs. Jones and the appreciation in which she is held and very best wishes for many more happy birthdays. Mrs. Lambart then presented Mrs. Jones with a very lovely gift from her guests.

Mrs. Jones briefly but very forcibly expressed her thanks to all for their kindness.

The invited guests were Mesdames Lambart, Cuth, McGrigor, Bremner, Bremner, Bremner, Bremner, Nelson, Anderson, Garrett, Platt, Teare and Moore.

Goodbyes were said and another happy milestone passed and a new one entered upon.

Master Charles McLeod, Calgary, grandson of Mr. A. A. Moore had the misfortune to fall from his bicycle while riding down a rutted alley and suffered a bad fracture of the right wrist.

Mr. and Mrs. Garrett are in Calgary with their daughter Alice who will undergo an operation for appendicitis. Thursday morning. Very best hopes for a complete and speedy recovery is the wish of her many friends.

Mr. R. S. Stockton, St. C. P. I. D. Strathmore is leaving Friday for Montana where he will attend the marriage of his daughter, Miss Davidson Stockton to Miss Louise Montana Saint of Thompson Falls, Montana. Mr. Stockton and Miss Esther will also go to Thompson Falls for the wedding. Strathmore friends will unite in heartfelt felicitations to the newly wedded couple for a long and happy married life.

W. G. H. Registrar of the Medical Association, together with the Rev. J. Locke of Calgary were in town on Wednesday.

Strathmore Red Sox defeated the Calgary Indians in the Semi Final of the baseball season. Eddie O'Brien and John Reisch were the winning batsmen.

Miss Bertha Gray and Miss Julia Short are enjoying a holiday trip to the coast.

Mr. J. G. of the Royal Bank is taking a short course in Agriculture at the farm of S. Swenson.

\$30,000,000 ESTATE GOES TO CHARITIES, DETROIT LAW

The millions of the late Florence H. Rockefeller, who made his fortune as one of the original stockholders in the Ford Motor Company, are going to charity. The will of the wealthy philanthropist, who died June 13 at the age of 72, was filed for probate recently. It created a trust fund for various charitable uses, which at times will result in making nearly \$30,000,000 available over a period of twenty five years. It was \$20,000,000 and \$10,000,000.

The will places administration of charities in control of a board of trustees one member of which is the widow, Mrs. A. Rockefeller. The original and immediate beneficiaries of the estate is to be expended for such benevolent, charitable, educational, religious, scientific and public purposes as in the judgment of the trustees will promote the health, welfare, happiness, education, training and development of men, women and children, particularly the sick, aged, young, erring, poor, crippled, helpless, handicapped, unfortunate and underprivileged. It was a check on race, color, religion or creed, primarily in Michigan and elsewhere in the world.

But the will also provided \$500,000 to invest in stock of the Ford Company and sixteen years later sold the stock to the Ford Foundation. It never put more than the initial \$500,000 into the company and had drawn more than \$1,000,000 in dividends.

SPECTACULAR BLAST PREPARED AT FLIN FLON

Flin Flon, Man. Preparations for another spectacular blast are under way at the Open Pit Mine where half a million tons of ore will be exploded. In one crash 150 tons of dynamite, about Sept. 10, A. Roche, Supr., announces that 160 holes have already been drilled averaging 70 feet in depth, five feet in diameter, and the discharge is expected to release 450,000 ft. of smoke and dust, and 100,000 tons, it is estimated will be waste rock.

To prevent falling in of clay and sand from surrounding area, the erection of retaining walls of great height has formed part of the present heavy mine drainage has already been provided.

STUBBS TELLS GATHERING WILL BE IN OTTAWA WHEN FORD REIGN IS TABBED

Quill Lake, Sask., L. St. G. Stubbs, C. C. F. candidate in Macleod riding addressed an enthusiastic audience which filled the Quill Lake town hall to capacity.

Farmers the miles around came to hear the C. C. F. representative in the coming by election in the Macleod constituency.

Mr. Stubbs in making his introductory remarks expressed his pleasure in meeting the Quill Lake people and told the audience that he intended it an honor to have the privilege to represent the C. C. F. organization in the Macleod constituency. He told them that although the powers that be had removed him from the bench in Macleod the Macleod constituency had offered him the opportunity to serve the people in the Saskatchewan constituency. As I come through the first test of connection with an election campaign in some cases we had to mention book up extending outside the province to permit of the necessary coverage but no dissatisfaction or complaint has been encountered.

He dealt with the four parties presented in this by-election: Liberal, Conservative, C. C. F. and the United Front. Mr. Stubbs told the audience that there was no difference between the Liberals and Conservatives. Both of them belonged to the capitalist class controlled by those who sought special privileges from which every party was in power. He distinguished between the C. C. F. and the Communist by showing that the former is a constitutional Socialist organization, while the latter is revolutionary.

He outlined the C. C. F. platform and declared that the objective was the establishment of the co-operative Commonwealth in which the basic principles underlying and regulating production, distribution and exchange would be the supplying of human needs instead of the making of profits. He dealt at length with the plank of social justice and the inequalities in the administration of law, giving many illustrations from his own personal experience in his work of 31 years on the bench. He stated that the C. C. F. aims to humanize the law and bring it into accord with the needs of the people.

He said that his old friend from W. L. Mackenzie King, when speaking recently at Wadena recently said that the magnitude of the present economic situation, Mr. Stubbs said that there was one matter to which he asked their attention and it was regarding the attitude of a Regina newspaper towards him, as to the slinging of the national anthem, God Save the King. He stated that this newspaper had taken a false and a cheap interpretation of words that he had ever used. He challenged them to disprove his patriotism and pointed out that this reference to the slinging of the God Save the King, a hymn that had been sung in the churches for over a century was representative of a desire and a recognition of a great need among the people at this time.

**NEW TRAIN TO RUN
120 MILES AN HOUR**

Philadelphia—Construction of a new type of railroad train which burns crude oil and is capable of attaining a speed of 120 miles an hour at operating costs of one third that of a steam train is under way at the Edward C. Roth Manufacturing Company here, according to an announcement of the company.

Consisting of three cars, the new train will be of stainless steel with a diesel engine and a diesel transmission built under the first car.

The train is being constructed for the Chicago and Burlington Quincy line, to be used on the Chicago-Denver run. It is expected that the new train will cut the running time in half.

NOVA SCOTIA ELECTION FIRST TEST OF KIND FOR RADIO COMMIS- SION

Ottawa—National control of radio broadcasting figured for the first time in a general election campaign in the Nova Scotia election and it worked to the entire satisfaction of all parties.

Under the act governing the radio commission station recently.

Under the act governing the radio commission station recently.

**FATE DRAWS PARALLEL
IN LIVES OF ASTOR
AND VANDERBILT BOYS**

New York—Fate drew a parallel in the lives of John Jacob Astor, third and Alfred Gwynne Vanderbilt boys.

Young Astor, whose father went down on the Titanic, became 21 last Monday and was handed an estate of many millions.

The son of the Vanderbilts, whose father lost his life in the Titanic disaster, became 21 September 22 and inherited more millions.

Neither of the youths has attended a seat of higher education, both had for tutors; both have been reared for a life of leisure.

Since Jacob, the third, whose inheritance amounted to millions in the first place and staggered them in real estate—was born after the death of his father, he is mentioned in will or court action—and there is no indication of just how many millions he will receive.

His half brother, Vincent Astor, received some 65 million.

Young Vanderbilt's immediate share of his father's estate is approximately \$25,000,000.

**CRONIE PRAISES
SOVIET SYSTEM**

Montreal—After a nine day visit to Russia by air and motor car, Robert J. Cronie, publisher of the Vancouver Sun, who was here, declared that reports derogatory to the Soviet experiment were grossly exaggerated.

He said that in Quebec from England on the Empress of Britain and passed through Montreal en route to New York. He will fly from that city to Vancouver and expected to be home Sunday night. Much of his two month's journey through Europe was by air.

I went to Russia to satisfy my interest in respect to the conflicting reports I had read of conditions in the Soviet Union. And I found a happy, contented people living a natural life.

The Vancouver publisher, while not arguing that the Russian example expressed the belief that the Soviet experiment was meeting with a large measure of success.

Mr. Cronie said Russia's great progress for a number of years, in the conduct of world affairs, in the world administration, and along certain lines, world evolution.

He says Russians are in the beginning of an economic honey-moon.

If there is one country in the world today which has found a real job to do, and is wholeheartedly doing it, that country is Russia.

STUBBS ADVOCATES SOCIALIZATION OF PRACTICE OF LAW

Winnipeg—Argument for the socialization of the practice of law was presented by L. St. G. Stubbs before a well attended meeting of the Assembly No. 118, Native Sons of Canada.

The law is a social instrument and should be provided by the state, said Mr. Stubbs. All the machinery of law is provided by the state, but the administration is left in private hands so why not socialize the practice of law. That would bring the processes of its administration within easy reach of all.

Mr. Stubbs recommended the abolition of all legal fees, the election of the office of public defender, and the creation of legal aid officers as part of the administration of the law. By such means litigation will be greatly reduced, but the greatest advantage of all will be the moral value of a true system of administration of justice.

Collective restriction of production is seen as the most likely cause of the present wheat prices by Steven Cartwright, Port Hope, Ont., economist. He said that under the present situation a paper read before the conference of the Institute of Pacific Relations which was held at the Hotel Strathmore in the Canadian Rockies.

For the first time in the ten years of its existence, a woman, Mrs. J. A. Baker, was elected of Balfour, charter member of the Trail Riders, has won the presidency of the Order. There would be no change under her rule, she said. That added that the job is great honor and I shall do my best to live up to the high level of my predecessors.

Flowers grown from bulbs and plants brought over centuries ago from France were recently cut and shipped from Grand Tre, Nova Scotia, to Montreal by Dominion Atlantic and Canadian Pacific.

It was the heart of the Evangelical Country and attracted much attention when displayed in the railway office of the city's commercial section.

The old lady was tidily inspecting the stock of spectacles. How much more time? she asked selecting a pair.

A dollar and a half madam. And how much without the case? Well the case is only worth five cents, madam.

Well, I'm very glad to hear it, said the old lady.

And placing a nickel on the counter, the dear old lady took up the case and walked timidly into the street, while the optician gasped for breath.

Little Heekie had a dog that was a great nuisance around the house and his father threatened to dispose of him, but the boy pleaded to be able to keep him. Finally, however, his father offered him \$5 to get rid of the dog, adding: I don't care what you do!

The thought of so much money was too much for Heekie and he agreed to the bargain. Next day he said to his father: I've got rid of De-mare, Dad.

That's right my boy. I'm glad you've done it, and here's your \$5. Did you get rid of him?

I traded him to Peacock for two pups.

Which is farther away, asked a teacher, England or the moon? Quickly, the children answered England.

England? she questioned. What makes you think that? Cause we can see the moon, and we can't see England.

It's a sad thing to witness good boys between young lovers, but we suppose the milkmen get used to it.

Don't you think a girl should know all about the man she intends to marry?

My dear, in that event, how few marriages there would be.

It's a sad thing to witness good boys between young lovers, but we suppose the milkmen get used to it.

SPORT NOTES

KING GEORGE'S LUCK

London, Eng.—For the first in many years, King George is having a slice of luck with his race horses. So far this season he has won nine races worth \$27,500 and occupies thirteenth place in the winning owners list. His record for the whole of the 1932 season was seven races, valued at less than half this year's winnings.

King George's best runners up to now are The Abbot, Linelight and Foxcroft, all bred at the royal stud at Sandringham, Norfolk. The Abbot's best showing was at the Goodwood meet when he beat the Aga Khan's smart colt Gino in the Sussex Stakes. Previously he won the Tulane Stakes at York and the Nonchalant Plate at Epsom. Linelight won the Newbury Spring cup, and the Hardwicke Stakes at Ascot, while Foxcroft secured three prizes at Newmarket.

Linelight is a four year old and is due to run once or twice again before the season ends in November. Afterwards the son of Lord Derby's famous horse, Phalaris, returns to the stud and should produce some good winners. His Majesty's horses are trained at Newmarket by William Jarvis, the eldest of three trainer brothers. He is tall thin, unlike brothers Jack and Basil, who are thick set. William is of a quiet retiring disposition and like the royal jockey, Joe Childs adopts the grim expression of a judge when one of his horses wins.

BILL DUTTON'S PURCHASE

Winipeg.—That Bill Dutton has purchased a smart looking colt from it has been said, is entering the name in the big stakes of 1934 at Toronto? The youngster is by General Grant out of L'Africana, line being a really well bred colt. The mare L'Africana was imported from Kentucky by it has been said while in foal and the colt was born at the Whittier park stock farm, thus qualifying for the ranks of the western Canadian foal bred horses.

PEPPY BOSTON NATIONALS

New York.—Just when the baseball world was beginning to wonder who would be next manager of the Boston Braves, the tribe staged one of the season's most notable uprisings, apparently naming Manager Bill McKechnie as their new coach.

McKechnie signed a 4 year contract with the club in 1929 giving him full authority to rebuild the Braves from the ground up, and this was Bill's last season to show results. The Braves haven't won a National league pennant since 1914 and they haven't finished in first division since 1921.

But now that the Braves are in second place and bowling along steadily with 15 wins in their last 17 starts—with only 37 games left to play—it seems certain that they will wind up in the upper strata of the circuit, although the Giants seven game lead seems too great for the Braves to pare down for the pennant.

Boston wrestled second place from Pittsburgh by beating the Pirates 5 to 4, when Wally Berger drove out his 22nd homer of the season in the 14th inning. His shot was the second hit off Vester Wally Hoy who took the Pirates mound in the fourth replacement. Hal Smith, Frankhouse went the route for Boston allowing ten earned runs. This victory completed a four game sweep over Pittsburgh and dropped the Pirates to a fourth place tie with Chicago.

IT IS ALL OVER BUT THE CHEERING

The New York Giants and Washington Senators have just about clinched the major league pennants, and they are headed for what should prove to be an interesting World Series.

Announcement

On August 26th the H. P. CAFE will open for business. (Next Door to Pool hall) Soft Drinks; Ice Cream; Candy, Etc. MEALS — at All Hours. Quick Service (Give us a trial and you will come again.) L. PAINT, Proprietor, Strathmore

The last travelling leaves, new rule to pennant contenders are now virtually tied with the winning, talented Pirates are the better they are seven and a half games behind the successfuls. They have played remarkable baseball of late, but it is extremely doubtful if they possess sufficient strength to overhaul the Giants.

The St. Louis Cardinals are also very much in the thick of the fight for the runner up position while the Cubs are just as much to the fore and although in fifth place, are only half a game away from the Pirates.

Forty-three thousand people attended the doubleheader in the Windy City, and this despite the fact that the Fall Foliage are out of the running.

MAJOR LEAGUE MAGNATES WOULD RETRENCH

What price minor league stars? That is the question which is causing considerable discussion in baseball circles these days.

The major league magnates of course, are all for reduction. The days of \$75,000 bonuses are past, they say. Clarence Rowland, scout for the Cubs and Bill Hinchman, Pittsburgh Pirates' ivory hammer, aroused the anger of Pacific Coast League owners recently when they reminded the Westerners that they didn't know the war was over, and flatly refused to do business at the prices asked.

However, the price tags remain unchanged. Los Angeles for example wants \$50,000 for Dick Warr, young pitcher who is leading the twirlers of the loop with sixteen games won and five lost.

In our own international, club owners made no move toward slashing player prices. Baltimore is said to want \$100,000 for outfielder Jolly Solters. Jersey City is reported to have put a \$50,000 tag on Jimmy McLokey.

The Coast League owners' argument is a good one for all the minor loops. They've got to make money somewhere to keep going, and the attendance isn't enough by itself to maintain the kettle at a boiling temperature.

Heard on The Street :-

Highbrow—But you admit that a certain sublimated and objective altruism would move you?

Lowbrow—I should prefer to hire a couple of trucks.

What is your wife going to exhibit at the World's School Fair?

A string of 14 imported gonorrhea.

Professor—I'm sorry to tell you Mr Smith that I found it necessary to thank you. And do you know who I thank?—I haven't the least idea.

Professor—You've given the exact reason.

Smith—I say, I understand you are the firm's detective?

Store Detective—I am sir.

Smith—Jolly fine! Would you mind ferreting out my wife for me?

Punster—I write these jokes, you know, and send them in to the papers just for my own amusement.

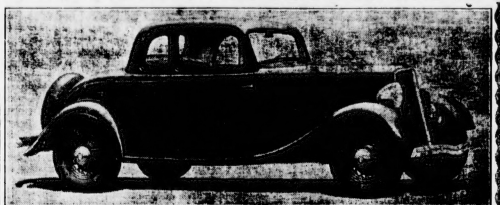

Friend (looking over rejection slips): So it would seem.

Lady (to tramp): I can give you a job digging up potatoes.

Tramp—Perhaps you'd better dig them up; he knows exactly where they are.

Patient—I believe I'm a little better, doctor, but I'm still short of breath.

Dr. Killum—I can stop that completely after a few more treatment.

ON DISPLAY TODAY THE NEW FORD V-8

The roomiest and most powerful Ford car ever built. 112 inch wheelbase. Bodies are wider and nearly 12 inches longer. 75 horse power engine. Over 80 miles an hour. New all-aluminum cylinder head, giving increased power, smoothness and economy.

Now, Edith she said, you're only Put down the 6 and carry the 4; a little girl so I'll give you an 1.

A Woman at Banff

I know God fashioned little fields
So they would be
A comfort for old lonely folk
Like you and me
Small gardens with their fences
Fragrant and tight,
And tiny gates to shut us
From the night.

But THIS He made with
Glory in His vision.

This multitude, where might
Prove our refuge
Moulded the hills with glad
Exultant hands,
Showing the valleys for
Wide pasture lands,
And so this towering peak
Forever bears
And ministers upon
its rugged stairs.

And every shining height
Reflects the glow
Of some white virgin field
of drifted snow
And over it he laid
With loving care,
The mantle of His peace
Forever there.

**DROUGHT, HAIL
AND GRASSHOPPERS
DO DAMAGE**

The Royal Bank Letter says limited rainfall during June and July, combined with extreme heat at an unusually early date caused material damage over a large part of the Prairie. Producers, seriously reducing the prospects for the wheat harvest. Injury from drought was particularly pronounced in those parts of the West which had had insufficient supplies of moisture earlier in the season, namely, South Western Manitoba, Southern Saskatchewan and South Eastern Alberta. Considerable damage has also been caused by grasshoppers and hail. The weather during July showed some improvement but generous rains and more favourable growing weather are required generally throughout the west. The cutting of wheat is already under way in Manitoba. Crops in Ontario and Quebec also suffered from hot, dry weather. Rains in July improved conditions but crops are maturing early; the cutting of fall wheat in Ontario commenced about two weeks in advance of 1932. The warm weather was beneficial to crops in British Columbia. Conditions in the Maritime Provinces have been favourable. Pastures throughout Canada were affected by the dry weather, and livestock suffered in consequence. Exports of cattle to Great Britain have been heavy, aggregating 25,000 head this season to date or more.

than double the number shipped during the same period last year. Shipments of bacon, ham and other meats are also greater in volume. Dairy production has been well maintained, butter exports are larger than last year, but shipments of cheese have declined. Gold mining operations in Canada have been satisfactory during the first half of the year, although the values recovered were somewhat smaller than in 1932. The premium at present being paid on shipments has encouraged the milling of lower grade ore. The lumber industry reports considerably increased operations. It is stated, however, that new business is well ahead of the output. Prices continue to rise for the more popular grades. Export shipments to all markets, except Japan are satisfactory and domestic demand is also improving. Stocks held by retailers in Canada have been reduced to skeleton proportions. Dealers are still cautious in their purchases but a large volume of lumber will eventually be required to restore these stocks to normal size. The demand for shingles has been strong. Prices have advanced and are nearly double what they were earlier in the year. Some difficulty has been experienced in filling orders promptly. There has also been some improvement in the demand for pulpwood.

**MANY STUDENTS
WILL ENTER
HIGH SCHOOL**

Thousands of young men and young women (they aren't boys and girls after they get out of the grades) will enter high school this year and if they are the right kind of young people they will get the right kind of thrill from this experience.

Entering high school is an epochal event in the life of anyone who is blessed with the opportunity. Most students never get beyond the graduation period in the high schools. After that they either go to work or loaf or do a little of each.

A great many young people who enter high school never graduate, and that is a very sad mistake for them to make, and a still graver mistake on the part of the parents, providing the latter deliberately gave their consent to a child leaving high school without graduating, when it is not necessary.

The first day in high school marks the beginning of an important event in the life of the young man or young woman who enjoys the privilege of acquiring this important education.

There will come a time in the history of this country (and it is approaching rapidly nowadays) when a young person without a high school diploma is going to find things pretty hard in this life. For education is the stepping stone to success and independence and without it all is slavish labor and interminable discouragement. Those who entered upon high school life today are to be congratulated. They are marching over a royal road and paying their own life highway so that progress will be smooth and sure.

**POLITICAL PREDICTION
MADE BY
BASSANO MAIL**

Nova Scotia has voted out the old Conservative government and elected a new Liberal government. There's an old saying about the Dominion going as the provinces go speaking politically. Liberal leaders in Canada are jubilant while Conservative leaders have nothing to say. Nova Scotia is an old Liberal stronghold, and the return to Liberalism probably is a return to normal. At the same time it indicates the people are turning away from the reactionary forces. The two C C F candidates didn't have a look in, and the new party has yet to win their first election fight. The C C F however, will be heard from in the next Dominion election, and it is likely they will have some representation in the next federal government.

It is noticeable what this firm has contributed to the raising of the working people. I'm interested to hear that. How was it accomplished? We are manufacturers of alarm clocks.

**PAY YOURSELF
A BONUS
on HAULING COSTS**

25 to 40% longer tire life—at no extra cost—that's what Firestone tires offer you and it's a worthwhile saving that will make a big increase in your grain hauling profits.

Firestone tires not only give long mileage but long, uninterrupted mileage, free from delays, because they are the only tires with all the advantages of Gum-Dipped Cords, Two Extra Cord Plies under the Tread and a Non-Skid Tread of toughest rubber grips the road and gives long even wear.

Start today to cut hauling costs. Equip with Firestone Truck Tires—the choice of big fleet operators who know that Firestone tires give lowest cost per mile. Your nearest Firestone dealer has a complete stock and can give you quick service—see him today.

There are definite indications
that township lines everywhere
are emerging from the difficult
times of the past year, in the con-
sidered opinion of William Hain,
shipman Traffic Manager, Cana-
dian Pacific. He cited the opera-
tion of 43 short trips by Canadian
Pacific from the British Isles to
the Mediterranean and nearby
ports, patronized by almost 200,
000 people as a proof of his asser-
tion.

THIRTEEN MUNICIPALITIES
CONSIDER RELIEF PROBLEMS
AT CHINOOK MEETING, AUG. 17

National City, in term used
to describe results of crop failure
over wide area—Govt. faces crit-
ical situation squarely.

On Thursday, August 17th, a
meeting was held in the Acadia
Hotel here, representative of all
municipal districts adjacent to
the Moose Lake line extending
from Hinton east to the Saskatch-
ewan boundary for the purpose of
discussing relief problems arising
out of the total failure of the 1932
crop. Thirteen municipalities were
represented, with two delegates
and the secretary treasurer from
each. The Provincial Government
was represented by E. L. Gray,
Field Crops Commissioner, while
Messrs. Louis Prosser and Geo.
Johnson, provincial constituents, were
also present.

The following municipalities
were represented: Acadia Valley;
Cereals; Coltonville; Bertwain; Gol-
den Centre; Souding Creek; Rich-
dale; Hand Hills; Cammer; Wister;
Hiram and Bowling Lake. Mr. Cites
was the unanimous choice of the
meeting for the position of chair-
man while J. A. Cameron proved an
efficient assistant. J. E. McLeod
acted as secretary.

Opening at 10 o'clock on Thurs-
day morning, this meeting of mun-
icipalities throughout the drought
area dealt with many problems.
Resolution calling for the establish-
ment of relief camps on coal lease-
lands adjacent to the railway, to
strip and mine coal to be supplied
free to the relief area; supply of
sufficient vegetables for the dis-
trict by the Provincial Government
so that they may be purchased at
reasonable cost; Government fin-
ancing of feed for needy settlers
so that the settlers may be charged
with the original cost only; free
freight on feed and coal; free mil-

ling of farmers wheat by local
mills; free freight on stock or for
winter feed; the apportionment be-
tween Provincial and Dominion
Governments of cost of providing
direct relief including food, cloth-
ing, and medical attention; the
estimate of \$150,000 as the mini-
mum required for relief in the area
represented; responsibility by the
Federal and Provincial govern-
ments for relief throughout the en-
tire area; Government operation of
schools and the adoption of a pub-
lic works program, were results of
the meeting.

In connection with a public
works program the meeting went
on record as being in favor of the
Win Pearce Stock Watering pro-
ject, designed to bring water from
the North Saskatchewan river in
the vicinity of the Clearwater and
to distribute same throughout a
wide area in Alberta and Saskatch-
ewan. This plan was originated
by the late Win Pearce of the
C. P. R. Irrigation Department and
recommended to the Dominion
Government in 1919. Levels were
run and the feasibility of the plan
determined shortly after that time.
It is now hoped that the Federal
Government may be induced to
further investigate and if possible
put through the operation of the
project as part of the national re-
covery program.

Another meeting will be held in
Chinook on Wednesday, October 2,
at which delegates will review pro-
gress made up to that time, and
make further consideration to re-
lief matters. Before closing the
meeting voted hearty thanks to
the presiding officers, members of
the government and to Mr. Geo.
Cook of the Acadia Hotel for ser-
vices so generously rendered.

—Chinook Advance

J. A. Gibson of Toronto recently
hooked a 35 lb musky after a four
and a half hour fight near French
River, Manitowish Camp, 215 miles
north of Toronto. The capture took
place late in the afternoon in full
view of many guests who flocked
to the shore to witness the fish-
er's battle.
